Here is a boot that you should at least try on. It stands out even among the dressy Fall and Winter REGALS.

**UPTOWN MODEL**  
Mannish, fetching, comfortable and (pardon the expressive slang) "swell," the high toe permits wearing a small size. The short forepart, high heel, instep and arch make even that small size look smaller. It's a shoe that puts approbation into the eyes of husbands and sweethearts.

## ARE STILL DECLAIMING

Custom Has Been Revived in Our Schools and Supt. Stuart Has High Opinion Of It—Some of the Subjects.

In reply to an editorial utterance in last Tuesday's Courier-Gazette, relative to the restoration of declamation day in the public schools, Supt. Stuart calls our attention to the fact that the custom is again in active practice, although there was a period when little or nothing was done along that line.

In the grades declamations and recitations are required from each pupil each term of the year, and Supt. Stuart regards it as worth more than anything else in the line of school work, and well worth the three years' efforts that were required to put it on a good basis. The assembly room in the high school, which was formerly used for this purpose, is now being adapted, because of the fact that it is in constant use for other purposes.

Similar work has been taken up in the high school, and it is increasing in popularity every year. Last year the Freshmen used their own room for the exercises, and the Sophomores made use of the auditorium. The Junior exhibition is well remembered. Prizes aggregating \$10, contributed by Governor Cobb, Dr. H. E. Gribbin, Cornelius Doherty and Principal Knapp, were awarded, the winners being E. Carl Moran, Viola Nelson, Doris B. Perry and David Buffum. The high school also gave a very creditable "Parents' Day" program.

The debating society, which flourished for some time in the high school, was revived last year, and Principal Cobb plans a continuance of the meetings as soon as the football season has closed. The participants will be Juniors and Seniors largely.

Among the subjects used by one 7th grade school last year were the following: "Wreck of the Hesperus," "An Order for a Picture," "The Tree Bells," "Hawthorne's Childhood," "A Glorious Battle Won," and "The Minuet."

In another 7th grade room among the subjects chosen were the following: "The Engine Story," "The Old Sampler," "Horatius at the Bridge," "Death of Gaudetius," and "The Weavers."

Some pieces used by the 8th grade pupils were: "The American Indian," "Union and Liberty," "Supposed Speech of John Adams," "Sherman's March to the Sea," "The Burial of Moses," "Whistling in Heaven," "The Bridge Keeper," "The Little Red Hen," "The New Church Organ," "Sam's Feast," "The Snowball," and "Killed at the Ford."

In the 9th grade were heard, among others, the following: "Lincoln's Address at Gettysburg," "The Rising in 1776," "Treatment of the American Colonies," "Paul Revere's Ride," "The Last Hymn," "Lochinvar," "You Put No Flowers on my Papa's Grave," "Counting Eggs," "Changing Colors," and "The Hero Down Below."

Last year about 50 books, containing readings and declamations were purchased for this purpose.

Cockroaches and bed bugs are the latest insects to be branded as carriers of typhoid fever germs, according to Surgeon R. E. Riggs, U. S. N. Experiments on the cruise Newark some time ago made Dr. Riggs suspicious of bugs in general, and of these two classes in particular. He tells of an outbreak of typhoid at a naval post on an isolated island where he was in charge of the water and food supply. Careful study was made to discover the cause of the alarming spread of the disease. The cockroaches and bed bugs finally were convicted by Dr. Riggs as the distributors.

## Erwin Smith, Secretary

Will Place Our Y. M. C. A. on a Modern Basis—Knows How to Separate Men From Their Money, in a Good Cause.

The board of directors of the Rockland Y. M. C. A. voted a few nights ago to put the affairs of the Association in the hands of a trained secretary. A call was extended to Erwin Smith of Methuen, Mass., who assumed charge last week without fuss or feathers. A review of his career furnishes some interesting sidelights on the man who is expected to do much for the enlivening and upbuilding of an institution which our business men have said they cannot do without.

The new secretary was born in East Haven, Conn., May 5, 1872, a son of Rev. Henry G. Smith, a Baptist clergyman. He was but 13 when his father died, and at that tender age began to face the stern necessities of life in aiding to support the widowed mother.

He worked a year or two in the printing business, and was then employed in an office for a similar period. The desire for education forced itself strongly upon him, and he resolved to work his way through college. His preparatory school was the Connecticut Literary Institute, now known as Suffield Academy. He met his tuition bills by operating a steam pump and working at the printer's trade. Presumably it was the latter occupation which inspired the poetic muse, for he was elected class poet.

Laundry work, waiting on tables and selling paper aided him through Brown University, where he achieved some fame as an athlete. He belonged to the track team, and in one of the dual meets ranked second in broad jump and high jump. His record in the former was 6 feet 6 inches, and the latter 5 feet 6 inches, and both of these stunts he has equalled since leaving college. He played center on the varsity basketball team too, and in his first game had the satisfaction of helping to defeat Columbia college 10 to 8. He managed the basketball team during his last year in college and on the first trip the Brown University team ever took. This was to Easton Penn., where Brown played Lafayette, and well known colleges. With Brown he played under Mr. Smith's management included Dartmouth and Williams.

Before he graduated from Brown, in the spring of 1902, Mr. Smith took a position at North Attleboro, Mass., as secretary of the Young Men's Christian League, an organization akin to the Y. M. C. A., which had about 200 members. He held that position for about a year and one-half.

June 30, 1903, he was married to May I. Marsh of Hartford, and on his wedding day there came a telegram from Winsted, Conn., stating that he had been elected general secretary of the Y. M. C. A. of that city. The Association had been running behind financially until it faced a total deficit of about \$400. It was quite a staggering proposition for a green secretary to tackle. With what success he met that emergency may be judged from the fact that the Association during his first year in charge paid all its bills, not a little to the astonishment of a wealthy citizen who had been accustomed to annually write a fat check to make up the deficit. The directors were so pleased with his achievement that they straightway boosted his salary \$200. During his second year the Association paid \$500 on its mortgage, and the next year saw that burden wiped out altogether. The membership, meantime, had increased from 172 to 204.

The Y. M. C. A. in Rahway, N. J., which had been forced to call 13 secretaries in 17 years, and was known as one of the hardest propositions in the Association field, was next to

Erwin Smith

valued at \$60,000, and a deficit of \$7000 beside. The Association was indeed in a very difficult predicament, but this had come to be an old story with Secretary Smith.

Obviously the first thing to do was to get that mortgage out of the way. Mr. Smith laid his views before the directors, who were finally urged to undertake an eight-day campaign. The net receipts were \$15,011, and \$8,800 was raised. The membership of the Melrose Y. M. C. A. was increased during Secretary Smith's administration from 341 to 551, the latter figures at that time representing the largest membership in proportion to population, of any city in the country.

Secretary Smith next went to Methuen, Mass., at the next salary, and inaugurated a quick campaign to raise \$3500. It was a success beyond expectations, \$4300 being realized.

Early last spring Mr. Smith received urgent requests for his services in raising money in other parts of New England, so, obtaining a leave of absence from the Methuen board of directors, he went to Taunton April 1, to work in the interest of the Boys' club there. The directors of

the club wanted \$25,000 for a new building, and when the campaign closed April 30, \$27,500 had been subscribed.

On May 1 he started in at Portland, Me., for the purpose of raising another fund for a Boys' club building and this likewise was a success, \$46,000 being raised by June 12, when Mr. Smith left for Berlin, Ontario, of Berlin has 16,000 inhabitants, and the project of raising \$30,000 there looked to be a big one. But when Mr. Smith took hold, he immediately aroused much interest and when the campaign closed \$33,414.50 had been subscribed for the new building for the Young Woman's Christian Association.

Mr. Smith had some interesting experience and had the pleasure of meeting personally some of the wealthiest and most influential men in the cities where he engaged in the work. In one of a gift of \$10,000 was given, and in all the cities there were several which gave more. One man in Portland had refused to give to the Boys' club work, but Mr. Smith, in another line of work, but Mr. Smith, in a personal interview with him and as a result the man subscribed \$500.

Mr. Smith is extremely modest regarding the achievements which have been achieved, but he has written, and lays great stress on the fact that it would be an utter impossibility without a large working force and everybody working hard. In Taunton, Mass., for instance, the organization comprised an executive committee of nine, a citizens' committee of 15, and committees of business men, young men and women, each containing 10 teams of 10 members each.

Mr. Smith retired from the work of a campaign secretary because of the desire to be more with his family, which has remained in Methuen, Mass., while he has been traveling. He has three children, a boy of 8, a boy of 5½ and a girl 2 years and 3 months old.

Secretary Smith between whiles of house hunting and routine work is making a careful and critical survey of the local field. His first step toward making the Rockland Y. M. C. A. a modern active institution will be a one-day effort to take care of the current expenses, with a presentation of each of the churches. A. A. Heald of Waterville, an expert Association worker—a specialist, in fact—will first come here to analyze the field and to make suggestions as to the best method of inaugurating a campaign.

This will be followed by a religious conference of men and boys, representing all of the churches of Rockland and surrounding towns. An expert, probably from the international committee, will lead this conference.

There are other big things in store, but the pace will not be set faster than the horse can stand. Messrs. Smith and his associates will drop up into the Y. M. C. A. rooms and introduce yourself to the new secretary.

## THE PERRY MEMORIAL

John S. Booth, Well Known at Vinalhaven to Have Charge of Important Task.

A New London man, John S. Booth is to have charge of the construction of the Perry Memorial at Put-in-Bay. Mr. Booth is an engineer for the Massachusetts Granite Co., which has the contract for the \$2,000,000 memorial. Mr. Booth, who is an expert on granite, is a son of President William Booth of the Salvation Army.

The stone contract for the memorial will rank next in importance to the new Pennsylvania railroad station in New York. The central figure of the memorial will be a massive Doric column, 350 feet high and 30 feet in diameter at the base. From a great bronze urn at the top a searchlight will play over the waters at Lake Erie. Granite approaches 1,000 feet long and 400 feet wide will lead to the central column. An ancient Grecian temple and a peace column made will be other figures in pink granite.

The memorial will cover over four acres of ground on Bass Island in the state of Ohio. The federal government, Ohio, Michigan and Rhode Island, are collaborating to build the memorial. Mr. Booth, who will have such an important part in the work, has been connected with such important buildings as Copley Plaza, Back Bay station and the Marshall building, Boston; the postoffice at Washington, and the postoffice at Providence. He will have offices at Sandusky, Ohio, and Milford, Mass.

Mr. Booth has been employed at Vinalhaven the past year. Very interesting statistics were read Sunday, October 27, by Ensign Helen Corbett of the local Salvation Army. Following are the figures for six months work, from March 24 to Sept. 15.

Collection (including street collections), \$406.84; donations, \$307.78; includes all money taken in by the local Corps during that time. The expenditures were \$864.62 as follows: Rents, \$123; light and heat, \$31.77; division headquarters, \$58.10; stationery, printing and telephones, \$15.08; traveling expenses of specialists, \$60.58; salary for two officers, \$125.00; (these salaries average \$2.50 a week, and out of that the officers must buy all their food and clothing); expense of hand coming in July, \$255; missionary work, \$72.20; furniture, \$40.80; charity, \$22.07; 695 hours were spent in visitation and 793 homes were visited; prayed in 269 homes; 2,690 War Cry orders; 1,715 food; \$90.01 paid out for "Cry"; 151 open air services were held with aggregated members' attendance 1,228; 135 indoor services with 9,884 in attendance; three prison meetings, 30 converts; 142 War Cry distributed to prison; 212 garments and 51 pairs of shoes given to worthy people; 14 meals and five lodgings found.

There is a debt of nearly \$50 on the Corps, which will soon be removed.

## Chats on Books.

Mrs. Frances Hodgson Burnett has written a new novel, which The Century will publish serially this year. Mrs. Burnett has named her story "The Temptation."

The Thomas Bailey Aldrich Memorial Association has recently had printed a number of artistically colored postcards, showing interesting views of the author's home at Portsmouth, New Hampshire. In the photograph of the garden may be seen many of the flowers so lovingly commemorated in "Shadows of the Flowers," a collection of verse selected personally by Mrs. Aldrich and to be published in November by Houghton Mifflin Co.

The exquisite art of Lester Hornby's Boston drawings could not be more fittingly preserved than in "Boston, New and Old," which early in November. The text by T. R. Sullivan is a delightfully discursive account of the growth of the city, with chatty anecdotes and recollections of real Bostonian tang. The book is being printed upon special paper and the illustrations are marvelous examples of the art of reproduction.

Every wide-awake lad wants to know how really important things are done; and he will have his whole-some curiosity satisfied in a series of articles prepared by A. Russell Bond, author of "The Scientific American Boy," who has written for the new year of St. Nicholas all the interesting details of some of the wonderful constructive engineering enterprises under way in and about New York. The series will cover "Five Hundred Feet Above Broadway," "One Hundred Feet Below Broadway," "A Dive Through the River-Bed," "Spinning a Web Across the River," etc., etc.

"Your United States" by Arnold Bennett, is announced for publication by the Harpers this week. The successful novelist has here turned his keen powers of observation upon us, and records in sympathetic, humorous, and unprejudiced reflections his views of our civilization. Our cities and with their architecture, theatres and hotels, our colleges, and their sports, our railroads and our business, are contrasted with those of England, or appreciated by the author of our own novelty and importance. Mr. Bennett came to America to write his impressions for the readers of Harpers' Magazine, and some of the material of "Your United States" has already attracted much interest in its columns.

"Esop's Fables," "The Arabian Nights," "Fairy Tales," "Gulliver's Travels," "Grimm's Fairy Tales," and "The Pilgrim's Progress" have just been published by the Harpers. These different volumes of famous classics are especially adapted as gift-books to children, being prepared from new plates, in type particularly suited to younger readers. Each volume is profusely illustrated, many of the drawings being in color.

Miss Mary Sullivan has just returned from a stay of fourteen months abroad with Professor and Mrs. C. W. Wallace, and brings with her the latest word on the new Shakespearean discoveries turned over in the manuscripts now becoming famous. In a volume entitled "The Court Masques of James I," which the Putnam's will publish in November, she presents important material from documents heretofore unpublished, concerning the diplomatic importance of private Royal theatricals with which Shakespeare was associated. The volume does away forever with the old story of Shakespeare and his fellows being "rogues and vagabonds."

## BIG LOBSTER

None of the fishermen of Long Island Sound remembers a bigger lobster being caught in those waters than the one pulled up on a blackish hook yesterday afternoon by Ralph King of 5 Franklin avenue, New Rochelle, who was fishing for blackfish with John I. King near Huckleberry Island. The lobster measures 33 inches from the end of its feelers to the tip of its tail. Each feeler is 17 inches long and 12 inches in circumference. The body measures 15 inches around. It weighs 18 pounds. A young oyster was growing on one claw.—New York Sun.

The city of Eugene, Oregon, has lately celebrated with great enthusiasm the advent of electric trains, and the prophecy was made that a year hence 100 trains per day will be running into Eugene. Newspapers describing the great event have been received at this office from Arthur W. Cook, a former Rockland man who believes he made no mistake when he struck across our broad continent, and "staked a claim," so to speak in a city which has become a great railroad center—electric trains at that. With the newspapers Mr. Cook sends us a pamphlet entitled "Facts and Figures about the Lane County, Oregon, the New Railroad Center of the Northwest—Opportunity's New Home." It appears from this that Eugene has a population of 12,000, is located on the main line of the Southern Pacific Railroad 124 miles south of Portland. It is the home of the University of Oregon, the third city of Oregon in population and wealth, and easily destined to become second in a short time.

## YOUR FAVORITE POEM

Old-fashioned poetry, but choice good.  
—Ezra Walton

In a London Square  
Put forth thy leaf, thou lofty plant,  
Fast wind and frost are safely gone;  
With sylvan mild and balmy rain  
The summer comes steadily on.  
Earth, air, and sun and sky combine  
To promise all that's kind and fair—  
But thou, O human heart of mine,  
Be still, contain thyself, and bear.

December days were brief and chill,  
The winds of March were wild and drear,  
And, soaring and receding still,  
Spring never would, we thought, be here.  
The leaves that burst, the sun that shone,  
Had, not the less, their certain date—  
And thou, O human heart of mine,  
Be still, restrain thyself, and wait.

## SPLIT IN REPUBLICAN PARTY GIVES WILSON AND MARSHALL THE MOST OVERWHELMING VICTORY IN THIS COUNTRY'S HISTORY—TAFT AND ROOSEVELT DIVIDE HALF A DOZEN STATES AND THE SCHOOLMASTER TAKES ALL THE REST—THE CITY AND COUNTY VOTE

**Wilson 395**  
**Roosevelt 74. Taft 8**

At 3 o'clock this Wednesday morning the standing of electoral votes in Tuesday's Presidential contest was as above indicated, with 54 in doubt. The doubtful votes were distributed among the five states, as follows: Idaho 4, New Hampshire 4, Pennsylvania 38, South Dakota 5 and Wyoming 3.

But little definite news had been received from the far western states, except California, where a Wilson victory was conceded. Tabulations in other Western states could be made with no degree of accuracy this morning.

This wonderful overturn has been foreseen for weeks by those who have given careful study to the political conditions of the day, and who subjected those conditions to the test of a little simple arithmetic. Woodrow Wilson's victory dated back to the ill-fated day when the Roosevelt element of the Republican party marched forth from the Republican national convention to form an independent organization. The Progressive party was unable to make any considerable inroads upon the Democratic strength, and the natural consequence was that two wings of the old Republican party fought each other bitterly for supremacy. The result we have today.

The complexion of the next Congress could not be accurately determined this morning. The House, of course, will be overwhelmingly Democratic. Of the Senators yet to be chosen the Democrats have only to elect 13 in order to have a majority, while the Republicans must elect 18.

### ELECTORAL COLLEGE

Following will be the standing of the Electoral College, as indicated by the returns received this Wednesday morning:

### VERMONT

The Green Mountain state remained loyal to the President, giving him a plurality of 924. The total vote was as follows: Taft, 23,247; Roosevelt, 22,343; Wilson, 15,379.

### MASSACHUSETTS

With half of the state tabulated it was apparent that Massachusetts, for the first time in the history of the commonwealth, had favored a Demo-

cratic candidate. Returns from 751 of the 1102 precincts gave Taft 93,100; Roosevelt 82,841; and Wilson 114,219.

Gov. Foss was re-elected by an increased plurality and incomplete returns from the 16 Congressional districts showed the Democrats had lost two, and that Progressives have been elected in their stead.

### RHODE ISLAND

Returns from 84 out of 180 voting districts, including 24 out of 60 in Providence, gave Taft 830, Wilson 1,272, Roosevelt 585. In 1908 these districts gave Taft 14,750, Bryan 7,365.

### NEW YORK

True to the election forecast this state gave its large electoral vote to the Democratic ticket. At 1 a. m. Wilson's plurality was estimated at 150,000. Outside of New York City are 3003 election districts, 2302 of which gave Taft 257,503, Wilson 271,206, and Roosevelt 161,063. Returns from 1534 of these election districts gave for governor Hedges, Rep., 149,492; Sulzer, Dem., 163,678; Straus, Pro., 94,123. Sulzer's election was assured. For the first time on record the Democrats came down to the Harlem river with a majority. The Democrats made a big cleanup of Congressional districts, and will control the new Legislature, which will elect a Democratic U. S. Senator.

### NEW JERSEY

Scattering returns from all parts of New Jersey indicates that Gov. Wilson has carried his home state and that the election is only a question of the size of the plurality which will be given him. Roosevelt is apparently second. The vote through the state is very heavy and the counting is very slow.

### KENTUCKY

Wilson will have about 38,000 majority. The early returns indicate that his plurality will exceed that of Gov. McCreary in 1910. Indications are that the Democrats have carried nine of the Congressional districts.

### STATES IN BRIEF

California: Long counted a Roosevelt state, but was early conceded to Wilson by the Progressives.  
Missouri: Wilson had a wide margin, with Roosevelt and Taft following in the order named.  
Nebraska: Omaha dispatches gave the state to Wilson by a small margin.

Utah: Fifteen precincts out of 57 gave Taft 2691, Roosevelt 2160, Wilson 2074.

North Dakota: 140 precincts gave Taft 2508, Wilson 3417, Roosevelt, 2575.

Louisiana: The New York Sun says Wilson had a greater majority than Bryan did in 1908.

Arkansas: Scattering returns indicate that Wilson's majority will be very large.

South Dakota: 637 precincts out of 1653 showed Roosevelt leading Wilson by 3133.

Iowa: Early returns from scattered Iowa precincts showed Taft polling about one-third of his 1908 vote. Wilson was holding almost his entire vote.

Oregon: National Committeeman King wired that Wilson would have 10,000 plurality.

Michigan: 45 out of 2084 precincts gave Taft 6040, Wilson 8192.

son were running neck and neck; 100 election precincts out of 200 gave Taft 8781, Wilson 8748, Roosevelt 7310. Same places gave for governor: Worcester, Rep. 8714; Walker, Dem., 8703; Churchill, Pro., 8436. The new Legislature will probably be Republican. The defeat of Congressman Sulloway and Carrier seems probable.

Roosevelt 8042. In Grand Rapids Roosevelt's vote was as large as Taft's and Wilson's combined.

Alabama: Wilson's plurality was about 60,000.  
Maryland: The Progressives conceded the state to Wilson by 14,000. Roosevelt ran second.  
Georgia: Wilson's majority according to the Atlanta Journal will be from 60,000 to 70,000.  
Oklahoma: It was claimed that Wilson's majority over Taft would be about 20,000.

rapidly after 5 o'clock, and within an hour the complete vote was tabulated in this office. With this out of the way, The Courier-Gazette pulling numerous strings, turned its attention to the general public with megaphone announcements between which there were sandwiched no long waits. The orator of the evening was Henry Alger, to whom The Courier-Gazette is under deep obligations for valued service through the long night.

At 11:30 p. m. some enthusiasts collected an abbreviated brass band and paraded the streets with exultant yells and red fire. At intervals there were cheers for Democratic leaders, and the residence of a well known Bull Moose leader was serenaded.

For the news service which we present this Wednesday morning The Courier-Gazette is indebted to The Courier-Gazette to under obligations to the Knox Telephone & Telegraph Co.

### ELECTION BRIEFLETS

Early in the evening Frank A. Munsey, a tremendous sloop for Wilson. Well, Frank, you helped make it.

The Democratic victory in Ohio was so sweeping that the state will send to Congress almost a complete Democratic delegation.

Speaker Champ Clark was re-elected to Congress in Missouri. While in Rockland he told The Courier-Gazette reporter that he could have won the Presidential nomination had he not stayed in Washington while the Baltimore convention was in progress. Vain and useless are regrets.

Uncle Joe Cannon was elected to stay at home by the voters of his Congressional district. It was not a Republican year in Illinois.

Syracuse, N. Y., went Democratic for the first time in its history. Wilson's plurality was 1000.

Waldoboro's vote: Taft 62, Wilson 358, Roosevelt 147.

Nicholas Longworth of Ohio was re-elected to Congress.

Complete returns from the city of Boston gave Taft 21,197; Roosevelt 21,548; Wilson 42,706.

### GLENCOVE

The Street Railway Co. discharged a large load of coal at their pier last week.

Mr. and Mrs. Herman Hoche left Friday night for East Union where they attended the funeral of Ralph Davis, who was killed at Washington while at work for the Central Maine Power Co. Mr. Davis was motorman on the car that ran to Oakland Park last summer.

The religious service at the schoolhouse Sunday was conducted by Wilson Merrill.

Robert H. House and family have moved into their new residence near the Oakland siding.

A Larabee boy who resides on South street came in contact with a mail car Saturday evening at the waiting station near the schoolhouse. His nose was broken and he sustained

Ex-President Roosevelt, who will not be exposed to the criticism of being a Third-Term.

enthus, no matter whether Wilson, Roosevelt or Taft cheer was passed out to it. The same apathy which prevailed in the campaign since September appeared to have possession of the election night proceedings.

The city returns were tabulated on The Courier-Gazette window in less than half an hour after the polls had closed, and they offered but little comfort to the Bull Moose element.

The county returns came in very

ed other injuries. He was taken to Rockland for treatment.

Mrs. Alda Oxtun has had repairs made on her house and shed the past week.

Laforest Smith has shingled his dwelling.

Capt. W. R. Hall's residence has received a fresh coat of paint.

Mrs. Fred Kenney and Mrs. Joseph Young have entered the employ of the Ordway Plaster Co. at Camden.

### ROCKLAND'S VOTE

That Wilson would carry the city was almost a foregone conclusion. That the Bull Moose ticket would poll between 300 and 400 votes was regarded as a fairly conservative estimate of an element that had never been tested, and was consequently unknown. The smallness of Roosevelt's following must have been disappointing to the leaders of the new party, some of whom believed that there would be as high as 600 votes for the Bull Moose ticket. Col. F. C. Knight, the state committeeman of the new party, had figured on about 400, but had hoped for more. The Taft voters went to the polls

without coaxing, and about, for, as far as this paper knows, there was no vehicle of any description working for the Republican ticket yesterday, and no funds with which to get out the vote. The Democrats and Progressives had teams and automobiles at work all day long. Everything taken into consideration the loyal Republicans made a showing of which they had no reason to be ashamed.

Wilson carried every ward in the city except the good old reliable precinct, Ward 3. Taft led Roosevelt in all except Ward 1 where the Bull Moose ticket had four more votes than the regulars.

Following is the detailed vote of the city:

	1912			1908			
	Taft	Wilson	Debs	Chafin	Roosevelt	Taft	Bryan
Ward 1	41	77	22	1	45	95	48
Ward 2	53	60	11	1	36	72	51
Ward 3	121	108	15	0	71	172	72
Ward 4	87	92	3	1	47	121	62
Ward 5	67	136	37	2	37	83	68
Ward 6	74	119	15	1	29	91	92
Ward 7	47	61	6	0	19	62	39

Democratic plurality, 163; Republican plurality four years ago, 234.							

Democratic plurality, 163; Republican plurality four years ago, 234.

### KNOX COUNTY RESULT

Wilson had a clean majority in Knox county, receiving 202 more votes than Taft and Roosevelt combined. The intense interest in the election was shown by the fact that the total vote was 1012 greater than it was four years ago—and these figures do not include the plantations of Mussel Ridge, Criehaven and Matineus, which will not be heard from until the next boat arrives.

Camden's vote was the largest the town ever cast, the Democrats increasing their vote by nearly 100, while the Bull Moose party took the lion's share of the balance. Roosevelt's vote there was only five less than he received in this city.

In Cushing there was an apparent flocking to the Wilson banner. Friendship remained true to its Democratic principles, while the Bull Moose party was ungalant enough to scoop in most of the scant balance. Hope showed a Democratic falling off, with T. R. barely heading Taft for second place.

Hurricane, first as usual to report, was the only town to report a Taft victory, and some day it will not feel sorry for it.

North Haven had been displaying strong Roosevelt symptoms, and was the only town in the county to give him a plurality.

In Rockport the Democrats held

their own, while the Republican vote was split in Roosevelt's favor, and this was about the situation in South Thomaston. St. George rubbed its Democracy in deeper than usual. Ditto Thomaston. Union proved that a house divided against itself cannot stand. Vinalhaven was strong for T. R., but the expected draft from the Democracy was an idle dream. Warren, which went Republican four years ago, made a sorry showing with its divided Republican forces. In Washington Wilson had it all his own way. Following is the detailed vote of Knox county:

### MAY RESULT FATALLY

James La Praik Received Concussion of Brain in Automobile Accident—David Stewart Also Injured.

James La Praik, boss dyer of the Seabright woolen mill in Camden, and David Stewart, boss dyer of a woolen mill in Worcester, Mass., were victims of a serious automobile accident near the residence of George Kaler at Glencove Tuesday afternoon.

They were speeding homeward when a boy drove Mr. Kaler's cow from the pasture onto the highway. An attempt was made to check the speed of the automobile, but the machine skidded into the cow with such force that it turned turtle, and the occupants were imprisoned beneath it.

The injured men were soon extricated, and an election automobile brought them to Knox hospital where five surgeons were in prompt attendance. La Praik was found to have suffered concussion of the brain, and at late hour Tuesday night, had not regained consciousness. His condition is regarded as extremely critical. He was about 35 years of age.

Stewart escaped with a fractured shoulder. The automobile was badly damaged. The cow, unwittingly the cause of the disaster, was dismored by the collision.

### HAZELHURST A SUICIDE

James Hazelhurst, one of the British sailors fined a few days ago for burglary at the home of George J. Whitten, committed suicide in a Main street saloon Tuesday night by cutting his throat. Before going to the room where he committed the deed, he complained of trouble with his stomach.

### APPLETON

While returning from Camden about 6:30 o'clock Monday evening, Oct. 28, Joseph Ames met a wagon, the horse having freed itself, in front of the residence of Albert Gushee, and at the same time met Charles Plummer who was returning from Appleton. On investigating the wagon they found a dead man lying face downward at the end of the shafts who proved to be Lindley M. Gushee. As Mr. Gushee had for a long time suffered from heart trouble the exertion was too great for him.

### Mrs. Nancy Bean

Mrs. Nancy Bean died Monday, Oct. 21, after an illness of several months. Mrs. Bean made her home with her son Andrew and wife who have done all in their power to make her burden as light as possible. She was totally blind for many years which was a great cross for her to bear, as she always wanted to do all she could for others. The funeral services were held Thursday, Rev. Russell officiating. The floral offerings were many and beautiful.

### Card of Thanks

Mrs. Lindley M. Gushee and family wish to extend their heartfelt thanks to the Odd Fellows and Rebekahs and the many friends for the help and sympathy rendered them in the hour of their great bereavement.

## Calk of the Cown

The Relief Corps Sewing Club will meet with Mrs. Henry Tominski, Union street, this Wednesday evening.

Miss Helen L. Whitmore and Mrs. J. G. Spaulding were guests of friends in Camden Friday, and also of Mrs. E. F. Bean in this city.

Dr. R. A. Sweet and son Fred have returned from a two weeks' gunning trip in Aroostook county, with two deer apiece.

The board of managers of the Home for Aged Women will hold a meeting Thursday 3 p. m. at Miss Lucy Farwell's, Summer street.

Mrs. Almada Pressey, who has been spending the summer with her sister, Mrs. Rose Gould, Masonic street, has returned to her home in Lynn.

George I. Whitten who was taken to Knox hospital suffering from a stroke of paralysis is slowly improving. His friends wish him a speedy recovery.

A slight fire around the furnace in the Shamrock Hotel night called out the department. The damage was small, caused principally by smoke and water.

Mrs. J. G. Spaulding returned Thursday night from a business trip to Bucksfield and left Friday afternoon for North Haven where she will visit her father, F. H. Smith.

The regular meeting of the W. C. T. U. will be held in the Y. M. C. A. rooms Friday at 2:30 p. m. The president, Mrs. Oxtun, will be glad to meet all members of the organization who can possibly attend.

Mrs. Charles Payne, who has been visiting her mother, Mrs. J. R. Smith, Park street, has returned to her home in Boston, accompanied by her mother, who will spend the winter in Boston with her daughters.

When Mr. and Mrs. Charles Lewis returned from the "movies" Halloween night they found their apartment possessed by seeming hoboes, who subsequently proved to be 18 of their friends, come to celebrate the festive occasion. The dining room had been decorated in green, white and red, and in the center of the dining table was a pumpkin, filled with fruit, nuts and candy. The evening was very delightfully spent.

Postal Gray, operator at the Western Telegraph office, has lately increased the efficiency of his wireless station at the Southend, so that there is no uncommon stunt for him to get in communication with San Juan, or the new government station at Arlington, Va. While the warships are in port he frequently transmits night letter messages, a convenience that is greatly appreciated by the naval officials. Young Gray was one of the first of the wireless operators at the edge of the subject falls little short of that possessed by the experts.

James Kennedy was arraigned before Judge Hurley yesterday charged with the larceny of a sweater from Mrs. Edith Jones of Pacific street. Mrs. Jones was awakened late on the night of Oct. 26, by the sound of somebody moving about her chamber and saw a man leap through a window with her sweater. She called out to her husband, who was in bed, and he identified Kennedy as the intruder. He claimed to have bought the sweater in New York. No trace of the man could be found. Kennedy was bound over to the January grand jury in the sum of \$300.

About 30 football fans from Rockland, Camden, Thomaston and Warren saw the Bowdoin-Bates game at Brunswick Saturday evening. The teams maintain their reputation for playing a very fast game when arrayed against each other. Knox county has one representative on the Bowdoin team in the person of A. Lewis of North Haven, whose work at right guard was one of the brightest spots in Bowdoin's playing. J. Lewis, his brother, is leader of the Bowdoin college band, which kept bravely at its task even when it seemed quite certain that the Brunswick team was going down to defeat.

The Methebesec Club met Friday with Mrs. E. E. Rankin, Cedar street. Three new members were admitted and one new name proposed for membership. The program for the afternoon was "Washington, Our Nation's Capital," by Mrs. R. A. Crie, followed by "Our Nation's Metropolis, New York," a humorous and graphic talk by Mrs. Cole, giving some of her reminiscences and observations while visiting the big city recently.

The latest paper "My Recent Voyage to Panama," by Mrs. Hix, was full of interesting material to every member. The paper was illustrated by maps and beautiful photographs of Panama and especially of the great Panama Canal. He seemed to begin to realize in a measure the magnitude of that greatest feat of civil engineering while listening to her vivid descriptions. The next meeting will be held with Mrs. H. I. Hix, Beech street, Nov. 15. Members please note change of place.

**THE NEW EMPIRE**  
Military Pictures Tonight—"The Great Jewel Robbery" Wednesday and Thursday.

It is certainly wonderful the many excellent motion picture offerings which are being presented at the New Empire Theatre by Manager E. Eugley which now comprise seven of the latest and best feature reels made by the world's best picture manufacturers. The new program which has been arranged is one which stands well up with the high standard of motion picture shows given in any of the large cities and the most discriminating patrons will surely be pleased with every one of the picture subjects in the big program. One of the headline attractions which will be presented today for the last time is the great three-reel production of the U. S. Government war manoeuvres of 1912 participated in by National Guards of New York, New Jersey, Massachusetts, Rhode Island, New Hampshire, Connecticut and Maine; also the famous 10th Cavalry of colored troops of the U. S. A. This picture is one of the best of this kind ever presented in Rockland. In addition to this great feature there is our good one-reel pictures which are far above the average, and every one who visited the Empire yesterday commended highly the general excellence of the program. Tomorrow the change of bill will have as the big headline feature the world's famous boxer, Kid McCoy, in the three-reel production, "The Great Jewel Robbery," a feature film that flashes a story of intrigue and vengeance that reads like a Laura Jean Libby novel. Don't miss this great attraction at the Empire Wednesday and Thursday only. The hit of the season.

**THE NOVEMBER MEETING**  
City Council Takes First Step Toward a Public Utilities Commission—Other Matters.

A Public Utilities Commission is contemplated in the following order, presented to the city government last night by Alderman Weymouth, and unanimously passed by both branches:

Ordered, The Common Council, authorized that the Mayor and City Solicitor be and they are hereby authorized and instructed to prepare a bill to be presented to the next legislature for enactment if approved by the city council which shall create a Public Utilities Commission to consist of the Mayor, who shall be chairman ex-officio, and six citizens, two of whom shall be elected every three years. The object of the Commission to be to establish new industries or other public convenience in the city, said Commission to have power to issue bonds to be guaranteed by the city, if lawful, and to be secured by any property, said Commission might acquire. Said Commission to have authority to purchase any property, wharf rights, and to hold any building when they can receive a sufficient guaranteed income therefrom to pay the interest on the bonds issued on said property and create a sinking fund that would secure the payment of said bonds within 30 years from date of issue. The Mayor is authorized to draw his order on the treasury for the necessary expense incident to the above legislation.

The new ordinance relative to cemeteries, parks and squares was laid on the table for one month, upon motion of Councilman Benner, with whom the suggestion of a salary of \$150 finds no favor.

The road commissioner was instructed to build an ash or gravel walk beginning at Hart's store and ending at or near the Franklin Tolman place.

Mayor Blethen was authorized to contract with responsible parties for clearing trees and shrubbery for brown-tail moths.

The following roll of accounts had a passage: Police fund, \$25; fire department, \$60; pauper, \$513; contingent, \$205; highways, \$1247; repairs on public buildings, \$270; schools, \$308; transportation of scholars, \$28; permanent improvements, \$475; board of health, \$41; state road, \$4; Park street, \$6; Northend paving, \$2154; Park street, \$736; retaining wall, \$1063; total, \$8130.

Building Inspector Jones examined 18 chimneys and condemned 11. He found 27 basements in good condition.

Local milk dealers were given a clean bill of health by Inspector French.

The October tax collections amounted to \$1817.85.

Sixty-eight orders were given on the city store. There are 18 persons in the almshouse.

Road Commissioner Winslow expended \$114.

Marshal Harding reported 41 arrests, 31 for drunkenness.

Mayor's orders in October amounted to \$15,835. Treasurer Adams reported a cash balance of \$11,203.

William Bragg was granted a license as victualer and A. B. Allen was licensed to keep a billiard and pool room at 440 Main street.

About this time we must begin to prepare our Christmas gifts. In looking them up do not forget to visit the novelty shop at the Universalist fair, Wednesday, Nov. 20.—Adv't.

Roses, Carnations, Lilies, Chrysanthemums, and Violets in variety constantly on hand in their season at the Mather Greenhouses.—Adv't.

# Crawford Parlor Stoves

Crawford "Parlor"

**"Crawford Parlor."** A genuine indirect draft stove with full return flue; the smoke passes down between the firepot and the outside casing of the stove to a flue beneath the ashpan, thence up and out through the back smoke pipe to the chimney, giving more heat and burning less coal. The grate center slides forward for dumping. Large clinker door; wide, deep ashpan; dust damper; nickel rails removable. Four sizes.

**"Tropic Crawford."** With or without down draft back pipe. Draw center grate. Best stove made at the price. Nickel rails removable.

"Tropic" Crawford

**Crawford "Wood Parlor."** In this new heating stove for wood the front door swings open to give the effect of a fire-place. By moving a slide in this door the fire can be seen without opening the door itself. The slide openings are protected by wire gauze. The main top swings to one side and underneath it is a large plate that lifts to admit large pieces of wood.

Crawford "Wood Parlor"

This stove is made in both direct and indirect draft styles. It is strongly made and very handsome. Three sizes, to burn 19, 22 or 25 inch lengths.

## HITTING NORTHWEST TRAIL

(Continued from Page Four)

with his strength of character and remarkable personality, and it is not a matter of surprise to me that the members of his church and his wide circle of acquaintances regard him with such respect and admiration. He is unquestionably a man of unusual ability, of great personal charm and singularly broad-minded.

The desire for reciprocal trade relations between this country and Canada is far from being dead, despite the adverse vote registered by the Dominion voters last year. The Laurier ministry, I was told by business men generally in Winnipeg, owed its defeat rather than a well-grounded belief that the real and underlying purpose of the proposed treaty meant ultimate annexation of the several Provinces to the United States, and not from any hostility towards the real principle involved in the treaty as framed. The opposition speakers and newspapers used to great advantage the speech delivered in Congress by Champ Clark in which he openly advocated annexation and practically claimed that the treaty as formulated was the opening wedge to that end. The desire to have the treaty ratified as proposed is desired by a majority of the voters of Canada, and more especially by those of Manitoba and the Provinces to the westward.

On my return I spent a few days in Chicago, arriving there Sunday, Sept. 22. The time of my arrival was an opportune one as the international aviation meet was drawing to a close. There were on hand several of the aviators who listed were not present. On Sunday afternoon many of the aviators, with their nonoplanes and biplanes, entertained more than 20,000 persons who had gathered on Michigan avenue, with many spectacular features. They remained in the air nearly four hours, two of them at a very high altitude and almost invisible to the naked eye. The day before my arrival, Lincoln Beachey, in his Curtiss biplane, while indulging in one of his foolhardy stunts, nearly caused the death by drowning of five persons. A motor boat containing two men and three women, one of the latter being 78 years of age, was directly beneath Beachey as he made a sudden dash downward, and thinking he had lost control of his machine and was falling upon them, lost their presence of mind and jumped overboard. They were rescued with much difficulty, the men in an exhausted and almost insensible condition. The old lady was taken to a hospital, but she suffered less than her companions as the physician in charge announced that she would be able to leave the hospital in a condition none the worse for her sudden bath.

It was during this aviation meet that Beachey afforded the most delicate sense of propriety of the ladies of Chicago. He impersonated the well-known French aviatrix, and attired in a skirt considerably abbreviated and in violation of all the canons of dress etiquette, sailed so near the earth that he could be plainly seen. The deception was not discovered until he descended at the close of his day's flight. The comments made on the immodest conduct of the supposed aviatrix were both interesting and illuminating.

I returned home Thursday, Sept. 26, my trip from Chicago being without incident except a visit to Niagara Falls where one has an opportunity to witness the power and grandeur of Nature's handiwork in no other form manifest or comparable on this continent. Although the land beneath the setting sun is full of charm and possibilities, I came back to Maine with a fuller and deeper appreciation of her scenic beauties, her magnificent resources, and the high type of her citizenship, than I had before I trailed westward where the course of empire takes its way.

Frank B. Miller.

## "Sick of MacFarland"

"Bunny" Has Given the Go By to Alleged Counterfeiter—Was Sorry for Him, but Prefers Her Father.

Florence Bromley, author of the "Bunny" letters, is through with Allison MacFarland, who was arrested in New York, Saturday, October 23, charged with attempting to counterfeit half dollars less than three weeks after he had been acquitted in Newark, N. J., on a charge of having poisoned his wife, the prosecution alleging, so he could marry the writer of the "Bunny" letters.

Miss Bromley knew Sunday of MacFarland's arrest through a telephone message received at the Bromley home. She has content of mind to think over her past relations with MacFarland, as well as his attempt to marry her immediately after his acquittal.

"No," Miss Bromley said Monday, "I don't propose to marry Allison MacFarland. I now think I am done with him. When he was acquitted I was sorry for him, and I would have married him had not the law prevented it, because I did not have my divorce papers. A woman does much through sympathy that she would not do after calm deliberation."

"Bunny" was extremely angry when asked if it was true that she had added to the library of "Bunny" letters since the acquittal of MacFarland.

"Why, of course, it is true," she answered, her eyes flashing. "He was trying to get a new start in life, and I wanted to encourage him. But I told him to destroy those letters as soon as he had read them. I told him he had brought quite enough notoriety to me through keeping my letters, and I thought he had learned his lesson."

"No," she continued, "I don't think I meant what I said in those letters when I said I would marry him. My father is bitterly opposed to MacFarland as a son-in-law, and if I was going to marry him I never would have come home after the trial. I would have remained with MacFarland and would have helped him to make a new start. Had it not been that a life was at stake my father would not have allowed me to go to Newark to the trial. He disliked the publicity attached to the trial as much as I did. He realized that although the man might be acquitted the story of the trial would follow me through the rest of my life. It was the only fact that he thought he owed it to humanity that my father allowed me to go to Newark. As it was, I was needed."

"I know nothing of the accusation against MacFarland of attempting to counterfeit half dollars or any other coin. I was of the impression that he had changed his name and had gone back into the advertising business."

"If this other charge had not been made against MacFarland would you have married him?" Miss Bromley was asked.

"I have answered that," she replied. "When I returned from Newark, following the trial, I made it practically impossible for me to marry him. I had to choose between MacFarland and my parents. I made the decision."

John H. Bromley, Miss Bromley's father, Monday celebrated the second arrest of his near-son-in-law by proceeding to assist one newspaper man out of his office and ordering out several others.

"I am sick of MacFarland," he said. "I don't want to hear anything more about him. My daughter will not marry him, and she will make no attempt to see him, and I am sure that she has no desire to have anything to do with him."

Last week MacFarland made two attempts to see Miss Bromley, but in both instances he was prevented by Mr. Bromley. When MacFarland was unable to see Miss Bromley personally he tried to get into communication with her by telephone, but he, too, Mr. Bromley proved a barrier.

"I told MacFarland," said Mr. Bromley, "that my daughter didn't want to have anything to do with him. So far as I know she couldn't see her. So far as I know she couldn't see her. So far as I know she couldn't see her."

MacFarland, his clothes unbrushed and rumpled and his face thinner and more haggard than usual, talked Tuesday to the newspaper men in the outer office of Mr. Henkel, United States Marshal.

"I understand that somebody in Newark is responsible for my arrest on this new charge," he said. "I didn't know that I had offended the law. I didn't keep secret the work I was doing."

"What was this work?" "I took the impression of one side, just one side, of a 50-cent piece—the impression taken in the shape of a cap that fitted over the coin—and then I covered the impression with silver leaf and filled the cap with lead, or something like it. The other side of this piece was smooth. I wanted to make a piece of jewelry in just the same way."

"As soon as I was arrested I wrote to Miss Bromley and told her all about it. I understood that her father is angry about the notoriety. So am I. There is no language that can describe my thoughts on this new arrest."

## DON'T WAIT TO BE ATTACKED

If There Is Rheumatism In Your Blood Drive It Out Before It Disables You.

"Last winter was the first time in twenty years that I did not have an attack of rheumatism," said a man who was recommending Dr. Williams' Pink Pills for this painful disease.

Dr. Williams' Pink Pills for Pale People do the only thing that will permanently cure rheumatism. They build up the groggy thinned blood and purify and cleanse it of every trace of the rheumatic poison. They are invaluable both during an attack of the disease and during the intervals between attacks.

If you have already passed through one or more sieges of the disease it is advisable not to wait for an attack before using Dr. Williams' Pink Pills but to start taking them now and prevent a return of the trouble. Don't be satisfied until you have thoroughly cleansed your blood, for until this is done you will never be free from rheumatism.

Mrs. Charles Day, of Tidonite, Warren Co., Pa., says: "I was taken very suddenly with rheumatism which I first noticed as a pain in my right knee. The pain went down to my ankle and sometimes would be in both knees, causing them to swell, and was so intense that I could not move without the greatest agony. My hands were drawn up so that they were useless and it seemed as though every joint in my body was affected. I was in bed nearly all winter and was so helpless that I had to be waited on."

"For two months I was under a doctor's care without his medicine doing me any good. I then tried liniments and various medicines but received no help. After four months of suffering I decided to try Dr. Williams' Pink Pills and much better before I had taken many boxes. I then decided to give them a thorough trial and was soon able to walk around and do my work. I feel that it is my duty to tell others of Dr. Williams' Pink Pills and how they have benefited me."

Start today to cure yourself with Dr. Williams' Pink Pills for Pale People. They are for sale by all druggists, or they will be sent, postpaid, upon receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y. Send for free booklet, "Diseases of the Blood, A Method of Home Treatment."

The remains of the late Mrs. Sarah Bourne of New York City were brought here Monday where the interment was made with prayer at the grave at 1:30 p. m. Mrs. A. M. Judson and William Bourne, daughter and son of the deceased, accompanied the remains here. Mrs. Bourne may have friends during her summer visits to our town and much of her early life was spent here. Sympathy is extended.  
Mr. and Mrs. L. M. Chandler and son Marcus returned Friday from Boston where they spent the week. Mrs. Harold Saunders of Brooklyn, N. Y., is visiting her parents, Mr. and Mrs. E. E. Rokes, arriving Friday morning.  
The store occupied by Fred Loring has been rented by Miss M. E. Bartlett of South Thomaston, sister of Mrs. Emery of this place, who has purchased the remaining stock of Mr. Loring and received a large new stock Monday. She will still continue the circulating library, with an entire new lot of books and with this fine location success seems inevitable. Her many friends here wish her success.  
Harold Murphy arrived Friday from Somerville where he has been very ill with pneumonia. He was accompanied by his mother.  
John E. Couzens, chief engineer on the Monrovia left last week for New York where he will spend the winter.  
The steamer Stockton is receiving repairs on the railway and steamer line is running on the route to Belfast in place of the regular line.  
A large number of members of Mt. Battie Lodge, I. O. O. F., went to Waldoboro Saturday evening and worked the first degree. A very enjoyable occasion it proved.  
The Friday Reading Club will hold its second meeting this week with the president, Mrs. W. R. Gill, 43 Mountain street.  
Dr. Frank Brooks of Greenwich, Conn., arrived Tuesday noon, called there by the illness of his father, Capt. Charles A. Brooks.  
The ladies of the Episcopal Guild will meet this Wednesday with Mrs. E. E. Rokes.  
Mr. and Mrs. Leroy McDermott and Miss Corinne Sawyer left on Monday night's boat for Boston, enroute for New York.  
Miss Marion Knowlton is clerking at Dickens' news stand during Miss Sawyer's absence.  
Messrs. Bisbee, Montgomery, Boynton and Wiley returned Sunday in the Bisbee car from Cherryfield and report good duck shooting.  
The motor boat belonging to Harney Leadbetter and fully equipped for scalloping went adrift Sunday and struck a rock which wrecked her and with the exception of saving the two engines, is a total wreck.  
George Sellers brought from Northern Maine a fine large moose which he is exhibiting.  
Mr. and Mrs. Fred Loring leave Thursday for Portland having closed their business in town. The best wishes of a host of friends will follow them in whatever new undertaking they may decide upon.  
Mrs. M. P. Hanly has returned from three weeks' visit with relatives in Connecticut. On her way home she visited her daughter, Mary, at the New England Conservatory of Music, and her son, William, at Holy Cross.

## Surprised to Find a Real Kidney Remedy

I was ailing for four years, was half off a good part of the time; Swamp-Root was recommended to me by a friend. I tried it according to directions printed on the bottle and to my surprise a few bottles cured me. I feel today that my excellent good health is largely due to the credit of Dr. Kilmer's Swamp-Root.  
Yours very truly

Binghamton, N. Y.  
Prove What Swamp-Root Will Do For You  
Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information telling all about the kidneys and bladder. When writing be sure and mention The Rockland Courier-Gazette. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

## The Coughs of Children

They may not cough today, but what about tomorrow? Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. This cough medicine is especially good for children. No anodynes. No alcohol.

Many a child is called dull and stupid when the whole trouble is due to a lazy liver. We firmly believe your own doctor will tell you that an occasional dose of Ayer's Pile, sugar-coated, will do such children a great deal of good. Ask him.

## FATAL ACCIDENT

Ralph Davis Killed When Dynamite He was Tamping Explodes.

Ralph Davis of East Union, an employee of the Central Maine Power Co., was instantly killed Friday afternoon about 2 o'clock by an explosion of dynamite which he was tamping into a drilled hole. Davis was employed by the power line from Winslow to Union—a new line that the company is putting through. The construction crew was drilling holes in a ledge in Lewellyn Moore's pasture. Davis was tamping dynamite into the ledges preparatory to blasting when the dynamite exploded instantly killing him. Several other employees of the company were standing near at the time but none of them were hurt. Davis has been employed by the Central Maine Power Co. for some time. A wife and two children survive. His remains were taken to the home of Lewellyn Moore's pasture, also for the kindness of Dr. Crooker of Washington Mills was called but he was past all medical aid. Undertaker Ware took charge of the remains which were taken to his home in East Union for burial.

Mrs. T. E. Libby spent Friday in Rockland.

Mrs. Rebecca Hunt returned from Rockland Friday.

Mrs. Willard Thorpe left Thursday for Bristol.

Mrs. F. H. Smith and friends of North Haven called on friends in town Sunday.

The funeral of Susie M., wife of Ginton Calderwood, was solemnized Tuesday afternoon at the home of George C. Banks, Rev. C. F. Smith of Union church officiated. Ocean Bound Rebekah Lodge attended in a body.

A good sized crowd attended the Halloween dance Thursday and it is spoken of as one of the best events of the season.  
A company of ghosts, witches and young maids seeking to learn their fate assembled at the home of Miss Alice Libby Thursday evening, Oct. 31. A good sized ghost greeted the guests in the dimly lighted hall and ushered the way into the large sitting room lighted only by candles and Jack-o'-Lanterns. Here were maidens of familiar faces yet whose attire was suggestive of the occasion. The black cats and winged creatures, the ghastly grin of the pumpkin faces and the weirdness of all as the witch wove a spell of enchantment was sufficient to usher in the success of an ideal Halloween party. In the hunt for fortunes Gladys Pettigill held the lucky string; Nina Landers secured the prize for hitting apples on a string. Ethel Hall and Clyde Gerish won the prize for bobbing apples. Lillian Hopkins was the mistress of fate and delivered the fortunes; also for hidden with walnut shells and neatly tied with ribbons. The dining room was appropriately decorated and each place was marked with a favor in the witch's hat with a broomstick. An excellent menu was served, which games and dancing were indulged in. The guests were Nina Landers of Hurdville, Doris Einfeld, Gladys Simmons, Ethel Hall, Addie Osgood, Margaret Lane, Lillian Hopkins, Charlotte Beegs, Annie Osier, Gladys Pettigill, Clyde Gerish, Evelyn Chillis, Lillian Hopkins and Josephine Clarke.

Miss Margaret Dyer entertained at a Halloween party. Some of the guests wore in fancy costumes which added to the fun of the evening. In the game of securing peanuts with a hat pin from a bowl of water Lona Ingerson was given the booty and Doris Pettigill secured the first prize. Supper was served and a dance later completed the evening. Those present were Pauline Patterson, Maude Billings, Leila Tolman, Annie Donohue, Mona Foster, Doris Williams, Gladys Raymond, Neva Headley, Lona Ingerson, Vera Hutchinson, Vera Williams, Beulah Gilchrist, Bernice Stinson, Doris Pettigill, Lola Whyte, and Miss Rose Reyner, who is Miss Margaret's school teacher.

The operetta in which 80 children participate for the benefit of Marguerite Chapter, O. E. S., will be given Thursday, Nov. 7, in Memorial opera house.  
Under the heading "Brought Seed from Maine" the Box Elder Valley Press of Montana says: "A Hubbard squash raised on soil by E. Clifton Coombs of this homestead was brought into our office this week and will be sent to the fairs at Helena and Havre as part of the Box Elder exhibit. His squash was raised from seed eleven years old which was brought here by Mr. Coombs from the state of Maine and it tipped the scales at 2 1/2 pounds." Mr. Coombs won cup No. 1 at the fair, also five first prizes and three second prizes. He left Vinalhaven in last March with his bride, who was Miss Mertie Mills. The seed spoken of in the clipping was raised by Mr. Coombs' grandfather, Roscoe F. Spear.

Sabra E. Aray  
Sabra E., widow of the late Richard Aray, died Friday morning, Nov. 1, after suffering from an attack of influenza. Mrs. Aray had been an invalid for 24 years since a stroke of paralysis. Years of patient endeavor and sacrifice have been given to her daily ministrations which have added to her life of confinement a cheer and the assurance of constant companionship by her only daughter Edith, now Mrs. George Newbert. The blow of her mother's great misfortune came to her when she was a student at high school and she then gave up outside duties and pleasures to take up those of the home in caring for her parents. Mr. Aray dying a few years ago.

Deceased was 70 years old and was a daughter of the late David and Mary (Aray) Vinal. She is survived by a sister, Mrs. Ivory Littlefield, and brothers, W. S. and A. B. Vinal, all of Vinalhaven. The funeral was held Sunday afternoon at the home. Interment at John Carver cemetery.

A representative of the Civil Service was in this city Oct. 23 to give the examination for stenographers. There were three vacancies to be filled, paying \$900 per annum at the start, with thirty days' vacation. The date was duly advertised, but **not one candidate appeared**, and these openings will be filled by young people from Massachusetts.

No other vocation offers such flattering inducements to bright, ambitious young men and women as stenography. George B. Cortelyou, a former Postmaster General, Wm. Morgan Shuster, recently Treasurer General to Persia, Wm. Loeb, Jr., Collector of the Port of New York (at a salary of \$12,000 per annum) and many other prominent men started as stenographers.

There will be another opportunity to take a Civil Service examination in the spring. Now is the time to prepare for it. Send for catalog giving full particulars. **Don't delay.**

Mrs. Charles Haskell has returned from a month's visit with her son, Harold C. Haskell.

### ELLIOTT-RIVERS

The home of Mr. and Mrs. Hiram Rivers of South Thomaston was the scene of a very pretty wedding Sunday afternoon, Nov. 3, when their only daughter, Amy Amelia, was married to William Henry Elliott, son of the late Capt. W. Frank Elliott of Pleasant Beach, by Rev. H. M. Wakefield.

The bride, unattended, entered to the strains of the wedding march played by Mrs. M. H. Wakefield and proceeded to an arch of evergreens prettily arranged in a corner of the living room, which was decorated with pine boughs, ferns and red berries, and standing beneath the wedding bell made their solemn pledges. The single ring service was used.

The bride was daintily attired in a brown traveling suit with hat to match. Only the immediate families and a few intimate friends of the couple witnessed the ceremony, after which refreshments were served by Mrs. Bessie Bulmer of Camden, sister of the groom, assisted by Mrs. H. R. Curtis of South Thomaston.

The couple received many pretty presents. They will reside for the present with the bride's parents and will be at home after Nov. 15. Congratulations are extended.

### CONANT-CANDAGE

At "The Worldlands," Norfolk, Mass., last Thursday evening occurred the marriage of William E. Conant, of Warren, Me., and Miss Linda Candage of South Bluehill. The ceremony was performed by Rev. Mr. Duncan of Lewiston in the old mansion whose history dates back to Colonial times. The bride was attended by Miss M. Day of Melrose and Robert Johnson was best man. The bride was given away by her father, Uzal Candage. Many friends and relatives were present to enjoy the occasion and offer warmest congratulations to bride and groom.

After a short honeymoon, which will be spent among friends at Rockland, Bluehill, etc., Mr. and Mrs. Conant will take up their home at "The Worldlands," where Mr. Conant is superintendent of the extensive certified milk farm carried on there.

### CRIEHAVEN

Mrs. F. S. Rhodes of Brookline, Mass., and Miss Edith M. Rhodes arrived last Tuesday for a brief visit with Mrs. H. A. Crie at the Old Homestead, which was a real surprise to their friends at Criehaven.

Wednesday evening, Oct. 30, being the 83d anniversary of Grandma Crie's birthday, the people of the Island from Eastern End to Sunset Point united in giving her a genuine birthday surprise party. Sitting in her favorite arm chair she had no thought of company until there came a knock on the front door and her daughter, Mrs. Rhodes, ushered in the guests.

Can't nuts and lemonade and two large birthday cakes. A profusion of beautiful garden flowers untouched by frost were brought to grace the occasion. A bunch of raspberries twigs bearing blossoms, green and ripened fruit was among the offerings. Postcards and gifts from friends and relatives from Seattle to the Pacific to Castine on the Atlantic were received by Grandma.

The school children recited poems about "Grandma," the young people sang and altogether it was a most enjoyable occasion, and Grandma's heart is full of thankfulness for such a demonstration of love and good will.

The writer sat down to a dinner where there were served green peas, green corn, crisp lettuce and tomatoes from Criehaven gardens. This was on Oct. 30, and what other island can eclipse this "Queen of Maine Waters?"

H. J. McClure was recently appointed Justice of Peace.

## The After Hours Salesman

MANY concerns lose money every night by not attracting the attention of the crowds on the streets in the evening. On the other hand many other concerns prosper because they employ the after hours salesman—Electric Light.

You can readily pick out these stores on the busiest thoroughfares—their show windows pouring a brilliant flood of light upward, outward and downward, thereby adding an attraction to the goods displayed not obtainable in any other way. Few people can resist a glance at the beautiful effect—most people stop and admire it.

The proprietors of these big shops are well versed in all modern methods which make for success in developing trade. They know that the lavish use of electric light pays, and use Edison Mazda Lamps to obtain it at a minimum cost.

Our Lamp Experts will gladly assist your artistic window dressers in making your store and shop windows as attractive as the best in town.

### MORSE HIGH NO MATCH

For the Doughty Football Team of Our Rockland High-Bangor High the Only Obstacle to State Championship Claim.

Rockland 24, Morse 3

Saturday the Rockland high school football team journeyed to Bath to play Morse High. Although Rockland had previously defeated Morse High 13 to 0 in Rockland, the Bath boys were confident of victory, as they had defeated the last South Portland team the Saturday before 12 to 0. The Rockland team was in good condition and the weather conditions were right for a fast game.

The game was started at 2:30, and Morse High started the scoring. Receiving the kick Morse put the ball down the field to Rockland's 25-yard line. Then the Rockland team found itself and Morse could not gain on the fourth down Fitzgerald of Morse High kicked the ball over the goal post.

Then Rockland received the ball, and hammered the Bath team the whole length of the field, when Ulmer cut off a 25-yard run for touchdown. From then on the Rockland team outplayed the Bath team at every department. Bath lost the ball again in the first quarter, and by hammering the line, featured by long gains by Kallach, Ulmer and Gilchrist, Rockland was again in position to score and Kallach carried the ball over. The first quarter then ended, score Rockland 12, Morse 3.

In the second quarter neither team scored, although Rockland had the ball on Morse's 10-yard line when the whistle blew. In the third quarter Ulmer registered another touchdown, and in the last quarter Richan got a score and Kallach carried the final score Rockland 24, Morse 3.

"Mont" Williams came all the way from Malden, Mass., to referee the game. This victory gives Rockland High a strong claim to the state championship. South Portland defeated Portland, Morse High defeated South Portland, and Rockland defeated Morse. That eliminates the southern part of the state. Up the

Kennebec, Gardner High of Gardner and Coney High of Augusta were defeated by Waterville High decisively, and Rockland High defeated Waterville. Rockland has not played in the northern part of the state, so its comparative strength with the up-state teams cannot be estimated. But Bangor High is easily the best team there, and the state championship lies between Bangor High and Rockland High. The score:

Morse, 1c  
O. Hunt, 1c  
Thompson, 1c

Rockland, 1c  
Staples, 1c  
Brewster, 1c  
Rocks, 1c  
Munroe, 1c  
Foughton, 1c  
Hathorne, 1c  
Magoun, 1c  
Sprague, 1c

Brown, 1c  
Wing, 1c  
Fitz, 1c  
Murray, 1c

Score, Rockland 24, Morse 3  
Touchdowns, Ulmer 2, Kallach, Richan. Referee, Williams. Umpire, Williams. Goal from field, Fitzgerald. Linesman, Demott. Time 12 and 10 m periods.

Rockland High has had a remarkably good season in football, and has now one of the best, if not the best team the school has ever had. Its officers are coach, "Linc" McRae; manager, E. Carl Moran; captain, Carl W. Perry. The following table shows the results of games played:

Sept. 28—Rockland 32, Vinal Haven 6  
Oct. 5—Rockland 13, Morse High (Bath), 0  
Oct. 12—Rockland 18, Vinal Haven 0  
Oct. 19—Rockland 0, E. M. Seminary 13  
Oct. 26—Rockland 12, Waterville 0  
Nov. 2—Rockland 24, Morse High 3

Totals, Rockland 99, Opponents 22. Rockland has scored 99 points to 22 of its opponents. Rockland High has won five of six games played.

and the only game lost was to a Seminary, not a high school.

Next Saturday Rockland High enters Camden High on the Broadway ground. Last year Camden won 6 to 5, in a great game. Rockland is out to redeem that defeat, and the game ought to be a great one, in view of the intense rivalry between the two schools. Once more the Broadway ground will be the scene of a battle royal between these old time rivals.

Saturday will be a good opportunity for Rockland people to see in action the team which is justly claiming the state championship. The game is called at 2:30. Admission 25c, ladies 15c. Encourage the team by your presence and support.

ROCKLAND THEATRE

Novel Bill Tonight—Weston in His Feature "Sinking of the Titanic."

Something new and entirely different from anything that ever appeared on a local stage before is to be seen at the Rockland Theatre tonight. It is a reproduction of the sinking of the Titanic. Every scene attending that fearful, tragic sea tragedy, when the mighty monster of the sea, the Titanic, sank with her passengers in midocean, is faithfully reproduced in rapid sketches by the artist who made the first picture from the wireless despatches. Lightning Weston, who is here tonight, for the last time.

Then there is another feature with this show, in the personages of the Jordan Brothers, comedienne jugglers. We have had jugglers here before, but when it comes to real juggling, you can't beat these sharks. If you want to see some real clever Indian club juggling visit this theatre tonight.

The usual high class program of pictures, all new today, are also shown.

Tomorrow there will be an entire change in the vaudeville bill. Miss Madeline Nash, singing comedienne, and Dreano and Goodwin in a novelty act, entitled "King and Queen of Fools and Funny Folks."

Miss Caro Murray has bought the Pittsfield Advertiser, a weekly publication, owned and edited for several years by E. W. Haskell.

Work was commenced at Calais Monday morning on the foundation of the new bungalow church which is to be built by the local members of the Christian Science faith.

One of the principal subjects under discussion down in Sanford and Springvale this fall, is a municipal gas plant, and the advocates of the improvement are pushing the matter with vim.

Mrs. Lydia Hatch, the oldest employee in the shoe factory of Leonard & Barrows, Belfast, was given a reception and banquet at the union rooms in the opera house block, Friday evening in honor of her 80th birthday.

Clarence B. Hight of Skowhegan, reports an income from a cow dairy that is hard to beat. The animal freshened the 10th of last May and since that date, including the calf sold for \$5, has produced milk that sold for \$95.46.

A flagstaff soon to be erected at Biddeford Pool is to commemorate the winter spent by the followers of Fernando Gorges at Winter Harbor for the purpose of testing the climate. Above the golden ball, surmounting the whole, is the weather vane, a ship, after the model of those of Christopher Columbus.

Says the Presque Isle correspondent of the Bangor Commercial: Starch making is practically wound up at different factories. The make will be small, owing to the fact that the percentage of undersized and defective potatoes has been small, and because the farmers have not found it profitable, owing to scarcity and high prices of help to pick up small potatoes and haul them to the factory.

There are yet hundreds of acres of grain in Aroostook county to be harvested, some of it being so green that it will be good for nothing but fodder. There are also acres and acres of potatoes yet undug. The oldest inhabitant cannot remember just such a summer and fall as this has been. We have no summer practically speaking and the rainfall has exceeded that of any other on record. Let us hope we will get back to our good old-fashioned summers again.—Mars Hill View.

It is said that a party of Washington county men will attempt the propagation of oysters on the Maine coast, and have applied to the federal government for permission to plant oysters for that purpose at the bottom of Straight and Cobscook bays near Lubec, there being about 5000 acres of suitable bottom for this purpose. The whole territory to be planted is secluded from outside sea waves and men who have looked it over say that conditions are excellent there for the culture of the oyster. It is the plan to begin operations as soon as the government has given the necessary grant of the right to plant the oysters, but before the work is

commenced the bed of the bay will have to be artificially prepared in order that the work may be successful. The distribution of oysters and clam shells, birch trees and other material of a similar nature all over the place where the oysters are to be planted is necessary in order to give the spawn something to collect upon. The small oyster will be brought here from the beds at Prince Edward's Island, which on account of the cold water they are believed to be well adapted to the Maine coast.

City Marshal O. B. Fernandez of Old Town has another pet. This time it is a bear cub, which he bought from a traveling show which exhibited here for a few nights recently in the interests of some proprietary medicines with an Indian flavor, says the Bangor Commercial. The bear was used as an attraction, but the promoters appeared to be tired of it and were glad to dispose of the animal to the genial marshal, who is unhappy if he is without one or more pets to care for. Sometimes it's eagles, again it's snakes and just now it is bears. Mr. Fernandez usually disposes of his pets to some circus.

After his term as vice-president had expired Hon. Hannibal Hamlin was appointed minister to Spain. He and Mrs. Hamlin took up their residence in the Spanish capital. On one of her shopping excursions she found an ancient cabinet, certified to be four hundred years old, that she was able to secure. The cabinet is of solid wood, the doors hung with iron hinges, much like those on barn doors. On her return to Bangor she had the cabinet polished up, the hinges gilded, making a handsome piece of furniture. Mr. Hamlin made some investigation of the condition of labor when that cabinet was made. He said he was satisfied that the skilled workmen who worked on it received eight cents a day and the common laborer got four cents per day.

The potato crop in Dexter and vicinity, this fall, is reported to be large, and the average farmer in that section is hustling, these days, to get his potatoes dug before the ground freezes. The work on many of the farms has been going on for the past two weeks and with good weather for the rest of the current week it will, in the majority of cases be completed. Regarding the yield, it is no uncommon thing to hear of pieces running 400 bushels to the acre, and even better, and in many cases potatoes run even in size and about the right size to meet with favor in city markets. Some growers have sold their potatoes direct from the field at from 44 to 47 cents per bushel, while others less fortunate, are selling at the prevailing low prices. Still others are storing potatoes in hopes of a change for a better in the market, although the buyers do not hold forth much hope. A few Dexter growers have sold some of their potatoes to New Jersey for seed, and at good prices, and others will ship seed potatoes later in the season. On the whole, the western Penobscot potato crop is larger than last season, and the prevailing prices much lower.

One of the two big hogs which Charles Bodge of Leeds had purchased of W. K. Carville of that place, created no end of trouble for him-

self and mate, last Wednesday morning by jumping from a cart to the backs of the horses attached to it. Mr. Bodge went to Mr. Carville's residence to get the hogs alive, and had a pair of horses and a large cart. The loading began. One hog was safely loaded, but the second one when loading jumped from the front end of the cart onto the backs of the horses. The horses were badly frightened and started at top-speed. They rushed through Mr. Carville's orchard, and the hog was directly in their path, and one horse went to the right of the tree, and the other to the left. This tore the harnesses from the horses and demolished the cart, breaking the back of the hog that was left in the cart. Then the horses ran across the fields to Dead river, then back to the highway and west to the place known as the "Cedar Swamp." Then they raced back to the home of Russell Gould, Mr. Carville's nearest neighbor, at which place they were caught and found to be unharmed.

## "Our Personal Guarantee to all Skin Sufferers"

We have been in business in this town for some time, and we are looking to build up trade by always advising our patrons right.

So when we tell you that we have found the eczema remedy and that we stand back of it with the manufacturer's iron clad guarantee, backed by ourselves you can depend upon the fact that we give advice not in order to sell a few bottles of medicine to skin sufferers, but because we know how it will help our business if we help our patrons.

We keep in stock and sell all the well known skin remedies. But we will say this: If you are suffering from any kind of skin trouble, eczema, psoriasis, rash or fever, we want you to try a full size bottle of D. D. D. Prescription. And, if it does not do the work, this is our positive no-pay guarantee.

W. H. Kittredge, Dgstr., Rockland; C. C. McDonald & Co., Dgstr., Thomaston

bottle will cost you nothing. You alone to judge, and again we have seen how a few drops of this simple wash applied to the skin, takes away the itch, instantly. And the cure all seem to be permanent.

D. D. D. Prescription made by the D. D. D. Laboratories of Chicago, is composed of thymol, glycerine, oil of wintergreen and other healing, soothing, cooling ingredients. And if you are just crazy with itch, you will feel soothed and cooled, the itch absolutely washed away the moment you apply this D. D. D.

We have made fast friends of more than one family by recommending this remedy to a skin sufferer here, there and we want you to try it now on our positive no-pay guarantee.
